Technical Skills

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Redux, HTML5, CSS3, TailwindCSS, Ant Design, Chakra UI

Backend: Node.js, NestJS, Express.js, REST APIs, Microservices, Authentication & Authorization, WebSockets

Databases & Search: MySQL, Elasticsearch, Prisma ORM

Cloud & DevOps: Kubernetes, Helm, ArgoCD (GitOps), AWS (EC2, S3, SES)

Tools & Platforms: Git, CI/CD, Docker, GCP, Vercel, Keycloak, Strapi, Firebase, Amplitude, Zipy

Experience

Full Stack Engineer – (Next.js, Node.js, NestJS, SQL, Elasticsearch)

May 2024 – Present

Zime AI

Gurgaon

- Migrated a legacy Ruby monolith to a **Node.js microservices architecture**, improving maintainability by **60%** and reducing deployment time through modular design.
- Optimized **Elasticsearch search and analytics**, reducing query latency by **90%** ($2.5\text{s} \rightarrow 250\text{ms}$) while supporting **10,000+ concurrent requests** with **99.9% uptime**.
- Built high-performance dashboards for revenue teams and leadership, improving frontend load times by **60%**.
- Developed end-to-end **CRO and Sales dashboards** providing a unified view of competitors, call insights, and deal pipelines.
- Automated post-call workflows and **CRM synchronization** using scheduled jobs, reducing manual effort by **70%**.
- Architected a **multi-tenant Admin Center** and implemented **Keycloak IAM**, reducing security risks by **80%**.
- Built a comprehensive deal activity timeline tracking ongoing activity, historical calls, and email interactions.
- Integrated **Amplitude, Zipy, and Strapi CMS**, improving monitoring, content management, and reducing developer dependency by **75%**.

Freelance Web Developer – (React, Material UI, Redux)

Aug 2023 – Mar 2024

Perfect Interiors

Remote

- Developed a responsive business website using React and modern CSS, improving product discoverability and user engagement.
- Improved performance and SEO through optimized asset loading and semantic HTML.
- Collaborated with stakeholders to align UI/UX decisions with lead-generation and sales goals.

Projects

Zime.ai – AI Sales Enablement Platform

Live

React, Redux, Firebase, Ant Design, GraphQL

- Built reusable React components and Redux state management for sales dashboards tracking pipeline and conversion metrics.
- Developed interactive analytics views with advanced filtering, drill-downs, and real-time visualizations.
- Optimized bundle size and API performance using code splitting, lazy loading, and pagination, reducing load time by **40%**.
- Integrated REST and GraphQL services with centralized error handling and JWT-based authentication.

HomeChef – Recipe Sharing App

Live

React, Redux, Node.js, Express, MongoDB, JWT, Multer, Chart.js

- Built a full-stack social recipe-sharing platform with 30+ REST APIs, JWT authentication, and secure password hashing.
- Implemented personalized feeds using MongoDB aggregation and built admin analytics dashboards with Chart.js.
- Designed a responsive, mobile-first UI with social features and deployed the application on Vercel.

Education

Dr. A.P.J. Abdul Kalam Technical University

Lucknow, India

Bachelor of Technology (B.Tech), Computer Science and Engineering; GPA: 7.9/10

Jul 2019 – Jun 2023
